Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: in combination with other limitations of the claims, the cited prior arts fail to teach a constant current supply connected to a source of the transistor; and a plurality of switching elements which can select any one of first to third modes, as required by claims 1 and 23; the cited prior arts also fail to teach a constant current supply connected to the source of the transistor, wherein the second and third switching elements control a supply of the first potential to the first electrode, as required by claims 7 and 26; the cited prior arts also fail to teach in the third mode, the first electrode and the non-inverted input terminal are connected and a potential thereof floats and a second potential is supplied to the second electrode, as required in claim 12; and the cited prior arts also fail to teach a fifth switching element for controlling a connection between the second electrode and an output terminal of the operational amplifier, as required in claim 18.

2. Claims 1-27 are now in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
